

MARCO ZANOTTI

I am a data scientist with broad knowledge in time series analysis, forecasting, anomaly detection, and econometrics.

I specialized in developing and enhancing business forecasting processes and practices. Over the years I developed and contributed to core forecasting systems in sectors like e-commerce fashion, airline, tourism and travel. I also guided and mentored junior colleagues in developing predictive models that enable accurate forecasting.

I am passionate about advancing the field of forecasting and fostering collaboration between academia and industry. I do academic work in forecasting, and I am a member of the International Institute of Forecasters. Recently I have enjoyed teaching professionals and university students about time series analysis, machine learning, programming, and statistics.

PROFESSIONAL EXPERIENCE

2026
|
2026

● **Researcher, Forecasting Specialist**

iqast - Software - Full remote

📍 Hamburg, Germany

- Contributed, with the research team, to improve the company's forecasting software

2025
|
2024

● **Data Scientist, Forecasting Specialist**

Wanan Luxury - E-commerce Fashion - Full remote

📍 Rome, Italy

- Led the company's time series forecasting projects
- Coordinated and contributed to the development of a forecasting tool to predict future demand for tens of thousands item-level (SKUs) time series across several markets worldwide, and with different product hierarchies, resulting in increased forecasting accuracy and efficiency
- Integrated probabilistic methods to support more informed decisions
- Designed and developed an app for evaluating forecasting experiments, enhancing reliability of the analyses
- Provided mentorship to junior colleagues, supporting their professional growth and development in the field of forecasting

2024
|
2021

● **Data Scientist**

Blogmeter - Digital Services - Hybrid

📍 Milan, Italy

- Integrated machine learning solutions into company's applications
- Developed an anomaly detection solution to promptly communicate relevant events to the clients
- Coordinated the Product team

2021
|
2020

● **Data Scientist**

T-Voice - Digital Services - Full remote

📍 Milan, Italy

- Contributed to the development of an AI platform for the analysis of textual data
- Effectively incorporated text data into forecasting models
- Coordinated the R&D team

Core Skills

High experience in time series modeling and forecasting, ML modeling and text mining

Languages

Italian

English

French

2020
|
2017

Junior Data Scientist

Uvet Amex GBT - Tourism and Aviation - Hybrid

📍 Milan, Italy

- Developed and maintained diverse statistical and machine learning models to predict: sales at different aggregations to support strategic decisions; daily inbound calls to optimize scheduling hours; air passenger demand over several destinations to support aircraft planning; business car rental demand to support fleets management
- Successfully improved the approach to forecasting, resulting in a significant reduction of errors and facilitating the faster adoption of machine learning solutions by the business
- Implemented an anomaly detection system to signal possible congestions in the company's reservation platform
- Developed econometric models to measure key drivers of business travel and tourism
- Supported automation processes implementing OCR solutions

TEACHING EXPERIENCE

current
|
2019

Adjunct Professor

University of Milan - Hybrid

I teach forecasting, machine learning, coding, and statistics.

current
|
2019

Business Consultant

Business Consultancy - Hybrid

I offer consultancy and training about forecasting, machine learning, and the development of business specific statistical models.

AWARDS

2025

IIF-SAS Forecasting Research Grant

International Institute of Forecasters - SAS

2025

International Symposium on Forecasting Award

International Institute of Forecasters

📍 Beijing, China

Programming

R

Python

Bash

BI & Visualization

Shiny

Databases

SQL

InfluxDB

MySQL

PostgreSQL

Big Query

Versioning

Git

GitHub

GitLab

BitBucket

CI / CD

GitHub Actions

Operating Systems

Linux

EDUCATION

2026
|
2022

- **Ph.D., Statistics**
University of Milano-Bicocca  Milan, Italy

Research on time series forecasting, cross-learning, forecasting stability, time series foundation models (LLMs), MLOps, and green AI

2018

- **Post-graduate, Data Science for Economics, Business and Finance**
University of Milan  Milan, Italy

2017
|
2015

- **M.Sc., Economics and Finance**
University of Milan  Milan, Italy

2014
|
2011

- **B.Sc., Political Sciences and International Relations**
University of Parma  Parma, Italy
ERASMUS, University of Lapland, Rovaniemi, Finland

PERSONAL COMPETENCES

- **Organisational and Management**

- Project management: I coordinated the development of different projects, from analysis to implementation
- People management: I coordinated the activities of junior colleagues, supervising and guiding in their professional development
- High relational and communication skills
- High resistance to stress
- Since 2020 I proficiently work from remote

Certificates

- [Certified Forecaster and Demand Planner](#)
- [High-Performance Time Series Forecasting](#)
- [Designing Forecasting Pipelines for Production](#)
- [Time Series Analysis](#)
- [Deep Learning for Sequence Modelling and Times Series](#)
- [Python for Machine Learning and APIs](#)
- [Python for Data Science Automation](#)
- [Shiny Web Applications](#)
- [Macroeconometric Forecasting](#)

Sports & Hobbies

I was a footballer. I played in Italian minor championships until 22. Now I practice kitesurf, an amazing waterboard sport, and I do canicross with my little friend Milo.

I like manga, boardgames, videogames, curling and footgolf. I love listening folk and country music.

Made with R and [pagedown](#)
